DETAILED ACTION

1. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Each of the ends portions does not have a fifth bar and sixth bar. Rather, the rack having fifth and sixth bar as claimed.

- 2. Claims 1, 5, 12, and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dunn (6726041) in view of Levere or Woerner (6669213). Runn teaches a rack having a pair of end portions each of the end portions having a first bar (between the lower portions 115), a second bar 103 being integrally coupled to and extending away from second bar, a third bar (between the upper portions 115), and a fourth bar (bar above the upper 111), a fifth bar, and a sixth bar. Dunn meets all claimed limitations except for the fifth bar and sixth bar being removable. It would have been obvious for one of ordinary skill in the art to provide removable as taught by Levere or Woerner (note corner joints in Fig. 5) to enable one to disassemble the entire rack.
- 3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Husak et al. (5678706). Husak teaches a rack having the 6 bars as claimed.
- 4. Claim 1 is rejected under 35 U.S.C. 102 (b) as being anticipated by Levere (3217449).

 Levere teaches a first bar (1st lower bar 32), 2nd bar (2nd bar)24, 3rd bar (the 2nd middle bar 32), 4th bar (3rd upper bar 24), 5th bar (middle bar 34), and 6th bar (lower bar 34).
- 5. Claim 14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Application/Control Number: 10/622,944 Page 3

Art Unit: 3727

6. Claims 2-4, and 6-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations

of the base claim and any intervening claims.

7. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Tri M. Mai whose telephone number is (571)272-4541. The

examiner can normally be reached on 7:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Nathan Newhouse can be reached on (571)272-4544. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
